HERE'S a wonderful new corset—by far the greatest figure-reducer ever sold as low as \$3.50. It's the new

Nemo LASTICURVE-BACK SELF-REDUCING

The picture tells what this corset does. You have an extremely long corset which is made perfectly comfortable by wide gorges of Lastikops Cloth at the back, extending far below the ends of the back steels. These gorges expand when you sit down, giving plenty of room; they contract when you stand up; the corset can't "ride up."

Two models, No. 322, with low bust, \$3.50 and No. 323, with medium bust, \$4.00.

REMEMBER "Lastikops Cloth" and "Lastikops Webbing," two Nemo patented inventions, are the only elastic fabrics in existence that will not lose their elasticity—will outwear the corset.

Typewriter Gives Business Standing

The small town merchant, the rural business man or the farmer who uses a typewriter has the advantage over the man who does not. The typewriter not only saves time in writing letters and making out bills, but it adds prestige and reputation to the user.

The L. C. Smith & Bros. Typewriter is especially adapted to use in rural districts because it will stand more wear and does not require an expert operator. By following the instructions we will give you, you will have no trouble learning.
